

Flyingshot Lake Estates - Phase 1  
Architectural Guidelines/  
Restrictive Covenants  
2024

Schedule A – Restrictive Covenant  
Appendix A – Fencing  
Appendix B – Builder’s Application  
Appendix C – Lot Listings

## ***SCHEDULE “A”***

### ***EXECUTIVE SUMMARY***

This document outlines the design guidelines for Flyingshot Lake Estates, a planned community within the County of Grande Prairie.

The stated intent of these covenants is to ensure that the said lands are developed with quality. We will strive to build a community with merit and therefore believe these covenants will help protect the value of investment made therein.

These guidelines may be altered, amended or varied by the Vendor, Crosslink Leaseholds Inc., at its sole and absolute discretion and without prior notice.

Each purchaser must inspect the condition of the local improvements installed by the Vendor, including but not limited to curbs, gutters, sidewalks, etc. on or around the lot prior to commencement of construction to determine if any of these local improvements are damaged. Written notice of any damages must be submitted to the Vendor prior to purchase of lot, failing which, costs for repairing damages for same shall become sole responsibility of the Purchaser of the lot.

### ***DWELLING TYPE***

The said lands shall be used for the construction of each lot of a single detached residential dwelling only (hereinafter referred to as “the residence”) and no semi attached, duplex or apartment shall be constructed on any of the said lands.

### ***CONSTRUCTION STANDARDS***

Any residence shall be of new construction and shall be built to standards and designs approved by the developer. Additionally, the developer shall approve the plot plan for any construction. For additional details on the approval process please see page 5.

### ***HOUSE SIZE***

All homes must comply with the following standards which are calculated above grade:  
Minimum House Sizes:

- Bungalow      1300 sq. ft.
- Split Level    1300 sq. ft.
- Bi-level        1300 sq. ft.
- 2 Story         1600 sq. ft. – 800 sq. ft. on main floor (per unit)

All areas in this clause include outer walls but shall exclude any basement area, garages, porches, patio, deck or like structure.

### ***DESIGN CREATIVITY***

- The siting of homes should maximize the building pocket, 95% minimum unless a finished side RV pad is constructed, in which case the minimum will be 85%.
- All residences must have a minimum of an attached double (24'x24') garage finished with similar design and materials used on the house.
- Similar elevations of style may not be duplicated within three lots apart on either side of the street (XOAX). (*The same model with slight changes in elevation is not sufficient*) Color schemes are to follow the above-mentioned guideline.
- No modular, mobile, prefabricated, log or A-frame homes on the said lands. All dwellings must be built on site.
- Verandas and Porches should be 3 – 6 risers (18" – 36") above grade. Minimum depth should be 4'. All verandas and porches must be "skirted" with finishing detail.

### ***EXTERIOR FINISHES/ELEVATIONS***

To achieve the standard and caliber of visual appeal and ensure that homes conform to the general trend of the neighborhood, a requirement for some architectural detailing and continuity will apply to all homes.

- Only wood, aluminum or vinyl siding, stucco, hardboard, brick, natural stone or cultured stone shall be utilized as exterior wall finishes and trim material.
- All stucco designs must include the use of battens on all elevations, not just the front elevation.
- Each house must have a minimum of 30% brick, stone or a similar material on the front façade. Cultured stone applications in lieu of real stone will be considered on an individual basis subject to approval of actual product to be utilized.
- Boxed or returned soffits are strongly encouraged.
- Front windows and gables must have relief or additional trim material to give definition. Changes in cladding material and/or pattern are strongly encouraged on all gables.
- No False Fronts
- Garage doors are to be a minimum 8' height on all styles of residence.
- Height between the garage door and eave line should be kept to a minimum. Appropriate detailing is required where height exceeds 24" inches.

### ***EXTERIOR COLORS***

Contrasting colors between cladding material and trim/fascia is encouraged. The use of a third accent color is also recommended for entry and garage doors.

Colors will be approved on an individual basis. Colors will not be duplicated on adjacent lots. In keeping with the character of the neighborhood and in keeping with blended streetscapes, extreme color variations will be strongly discouraged. Exterior finishes and colors are to be complementary. Paint chips, brick, stone or stucco colors **must be submitted** for approval prior to their application to the home. For additional details on the approval process please see page 5.

## ***ROOFING***

- The following exterior materials only are to be used: Cambridge 30 – Driftwood,
- All roof slopes shall be a minimum rise of five (5) feet for each twelve (12) feet on run, including garages on all bungalow, bi-level, and split-level home styles. All 2-storey plans shall be a minimum of six (6) feet for each twelve (12) feet on run, excluding garages.
- Alternate roof slopes may be approved by the land developer on a case-by-case basis.

## ***FOUNDATIONS/BASEMENTS***

No concrete foundations shall be exposed more than 12” in front of garage driveway or garage floor. All exposed concrete on foundation or basement walls must be parged prior to completion of construction. All basement/foundation material must be concrete; no wood basements of any kind will be permitted.

## ***DRIVEWAYS AND SIDEWALKS***

Concurrent with the construction of the dwelling:

- Driveways are to be in conformance with the driveway location plan.
- Driveways and front walks are to be constructed of concrete or stamped concrete.
- Pre-cast concrete slabs, cobblestone, interlocking brick, wood or gravel are not permitted.

## ***LOT GRADING***

Ideally, all drainage from roof leaders and foundation drain pump-outs is to be directed to the front of the lot. Due to the lot elevations in this phase, it is crucial that the lots be graded according to the approved subdivision grading plan provided by the land developer’s engineering firm. Many lots are back to front drainage, which require extra attention to detail.

## ***LANDSCAPING***

- Within twelve (12) months of occupancy, all front yards shall be seeded or sodded to lawn grass, except for those partitions used in other decorative landscaping techniques, such as flower beds, shrubs and washed or tile rock
- All lawns must be completed to the front street curb.
- The developer will provide one tree per lot to be used in the front yard only. Tree selection will be predetermined by the developer and their contractor.
- Planting hedges or border type of tree planting is not allowed along the property lines between the adjacent roadway and the front side of the dwelling.
- On corner lots, the homeowner is responsible for landscaping to the side curb and maintaining the area.

## ***FENCING***

Any fence erected on the lands shall be no more than six (6) feet in height and shall be of wooden construction following the general specifications set out in Appendix “A” hereto. No fence shall protrude or be constructed closer to the roadway than the front of the residence. The front yard (defined as part of the lot between the living area of the residence and the street or avenue) of any lot shall not be fenced. For greater certainty, corner lots shall not have the front yard (determined by the directional facing of the house) fenced but as with the remaining lots may fence the side and rear yards. Fence boards must overlap, no gaps

permitted in fence boards, to ensure consistency throughout the neighborhood. The uniform color choice is: **Tombstone Grey** (Sherwin-Williams or color match elsewhere).

### ***COMPLETION PERIOD***

Any exterior construction on the residence shall be completed within nine (9) months from the date of commencement of construction. Upon completion, the property shall be cleaned up to not constitute a nuisance or annoyance to neighboring properties.

Home construction must commence within one year of purchase of the residential lot. The purchase of the lot is deemed to be when full payment has been received by the developer.

### ***FIREPLACES***

Where a fireplace is installed, there shall be no exposed chimney pipe on the exterior of the residence, except above the roof line.

### ***SATELLITE DISHES***

- No satellite dishes shall be placed in front yards
- No satellite dishes shall be larger than thirty-six (36) inches in diameter

### ***RECREATIONAL VEHICLES***

RV's, motor homes and boats are not allowed to park longer than 4 days in the summertime at any one time either on the front street or in the front driveway. The intent of this is to allow for preparation for weekend holidays and such. All other times of the year they are not to be parked for longer than 24 hours.

### ***CLEAN UP***

Builders should encourage timely removal by all sub-trades of litter on building sites. Failure to comply will result in a clean-up bill being charged to the lot. Supplying bins by the builder is mandatory.

No dumping of any kind without the written consent of Crosslink Leaseholds Inc. Failure to comply will result in a clean-up bill being charged to the builder associated with the offender.

### ***ADDITIONAL INFORMATION***

- No signs or advertising material of any kind shall be placed on a lot except for a building contractor signage (during construction) or during a political campaign (removed within 48 hours after election date).
- Non-operative vehicles, waste, garbage or rubbish shall not be stored or placed on any lot.
- No accessory building or structure shall exceed the height of the main structure.
- No accessory building or structure shall be closer to any lot line than 1.2 meters (4 feet).
- All yards are to be mowed regularly and kept weed free.
- No accessory buildings except garages shall be in the front yards. All buildings should be finished in the same exterior materials and colors as the residence and be within the County of Grande Prairie CR-2 zoning allowances. A development permit must be obtained from and approved by the County for any accessory building. Please check the County Land Use by-laws for further specifications. [PROPOSED LAND USE \(countygp.ab.ca\)](http://PROPOSED LAND USE (countygp.ab.ca))

- Flyingshot Lake Estates is zoned for CR-2 zoning allowances. All requirements under CR-2 zoning must be adhered to. CR-2 Zoning allowances are provided on the final pages of these restrictive covenants.
- Any accessory building or structure shall be located at least 1.8 meters (6 feet) from any principal building.
- No accessory building or structure shall exceed the height of the main structure.
- No accessory building or structure shall be closer to any lot line than 1.2 meters (4 feet).
- All yards are to be mowed regularly and kept weed free.

### ***APPROVAL PROCESS***

Before applying to the County for a development permit, the applicant shall submit plans for approval of Crosslink Leaseholds Inc. Application shall include the following:

- A complete set of scaled plans and elevations,
- A cheque payable to the developer for up to \$10,000.00 as a security deposit,
- A copy of plot plan with elevations prepared by **Helix Engineering/Surveys** or a surveyor approved by the developer,
- A completed and signed application form, and
- Material and color samples, as required.

Crosslink Leaseholds Inc. will review the plan and recommend approval, modification or rejection of the application based on the adherence of the plans to these guidelines. Should disputes arise, the developer shall make the final decision on the acceptability of plans. **Please note:** the development permit will not be processed unless the County of Grande Prairie has received confirmation that the developer has approved the builder's application. Once approved, Crosslink Leaseholds Inc. will send a copy of the application indicating any changes to the County of Grande Prairie and the Applicant. After approval, the plans may not be altered without prior approval of the developer. Crosslink Leaseholds Inc. will keep an up-to-date record of plans showing house types, color, etc. to advise the applicants of how their proposed house will best fit into the subdivision.

### ***BREACH OF COVENANTS***

In the event the developer or any other landowner touched by these covenants takes legal action to enforce these covenants, the person seeking the remedy shall be entitled to costs on a solicitor-client basis. The Developer may access any land touched by this restrictive covenant to remedy any breach of this covenant and, where remedial work is performed, may charge the lands with a Builders' Lien to secure payment. Should any owner of any lot breach any of the covenants, any of the other landowners in Flyingshot Lake Estates may proceed in law against the offending owner to enforce these covenants, provided however that no obligation action or claim lies against Crosslink Leaseholds Inc. or its principals other than as a registered owner in the event of such a breach. This covenant shall constitute an absolute defense to such claim or action against Crosslink Leaseholds Inc. or its principals.

---

## SECTION 7: COUNTRY RESIDENTIAL (CR-2) DISTRICT

---

### 1. **PURPOSE**

The purpose of this district is to provide a residential district where the primary use is single dwelling units with limited additional uses. Single dwelling units within this district are mainly serviced by potable water wells and private sewage disposal systems. Development may be serviceable if central or common water distribution systems and central or common sewage collection and treatment systems are available. It may be used as part of a new community development in the County that is subject to an approved area structure plan.

### 2. **USES**

No person shall use any lot or erect, alter or use any building or structure for any purpose except one or more of the following:

#### **Permitted Uses**

- (a) Dwelling Unit, Single Detached (one/lot)
- (b) Garage (one/lot)
- (c) Utilities

#### **Discretionary Uses**

- (a) Accessory Use
- (b) Agricultural Pursuit, Minor
- (c) Home Occupation, Intermediate
- (d) Modular Home
- (e) Park
- (f) Public Use
- (g) One Accessory Building or Structure (less than 100 m<sup>2</sup>)
- (h) Second Accessory Building
- (i) Sign

### 3. **DISTRICT REQUIREMENTS**

In addition to the General Land Use Provisions contained in Section 3 and the Special Provisions for Country Residential Districts contained in Section 5, the following regulations shall apply to every development in the district.

	Municipal Serviced	Un-Serviced
Minimum Lot Area	760 m <sup>2</sup>	1.0 ha
Maximum Lot Area:	1.0 ha	4.0 ha
Minimum Lot Width:	20 metres	60 metres

---

**SECTION 7: COUNTRY RESIDENTIAL (CR-2) DISTRICT**

---

Minimum Front Yard	7.0 metres	7.0 metres
Minimum Rear Yard	7.0 metres	7.0 metres
Minimum Interior Side Yard	3.0 metres	3.0 metres
Minimum Exterior Side Yard	6.0 metres	7.0 metres
Maximum Building Height	10.5 metres	10.5 metres
Maximum Lot Coverage	35%	40%
Minimum Landscaped Area:	35%	40%

**4. SPECIAL REQUIREMENT: ACCESSORY BUILDINGS**

No accessory building or structure shall exceed the height of the main structure. No accessory building or structure shall be erected in any yard other than the interior side yard or rear yard and shall be no closer to any lot line than 2.0 metres (6.6 feet). This special requirement does not apply to garages.

**5. SPECIAL REQUIREMENT: HOME OCCUPATION, INTERMEDIATES**

No Home Occupation, Intermediates shall be permitted on parcels less than 1.0 ha in size.

**\*\*\*Please attach the following:**

- A complete set of scaled plans and elevations**
- Copy of plot plan with elevations prepared by Helix Surveys**
- Completed and signed application form**
- Material & color samples, as required**
- \$10,000 Damage Deposit**

## Additional Information

A damage deposit up to \$10,000.00 is due prior to house plan and grade approval. The deposit amount is decided upon at the discretion of the developer.

1. \$7500 - Breach of architectural objectives - to be reimbursed after construction completion
  2. \$2500 - Possible damage to:
    - a. curb stop – Water valve
    - b. sidewalks, curbs and gutters
    - c. Driveway aprons and asphalt
    - d. Boulevard landscaping and trees
    - e. Light standards
    - f. Fire hydrants
    - g. Cathodic protection points
    - h. Grading and drainage swales
    - i. Fencing
- To be reimbursed after FAC compliance with municipality or inspection with Builder

The procedure for a deposit return is as follows:

- Exterior completed in accordance with registered guidelines and as approved by the architectural consultant.
- Landscaping satisfactorily completed as per requirements.
- Rough grading completed
- Water valve exposed and marked.
- Sidewalks, street, lane, gutters and curbs cleaned.

Upon Completion of construction, site works, and landscaping, a final inspection is done to ensure compliance with the architectural guidelines and to check for any damages to municipal improvements. **To initiate the final inspection, a request form must be forwarded by the builder to Crosslink Leaseholds Inc.**
